

The background features a complex, abstract pattern of thin, white, wavy lines that resemble a grid or a series of overlapping curved bands. These lines are primarily concentrated in the upper right and lower left quadrants, creating a sense of motion and depth. The rest of the background is a solid black.

OSINTly

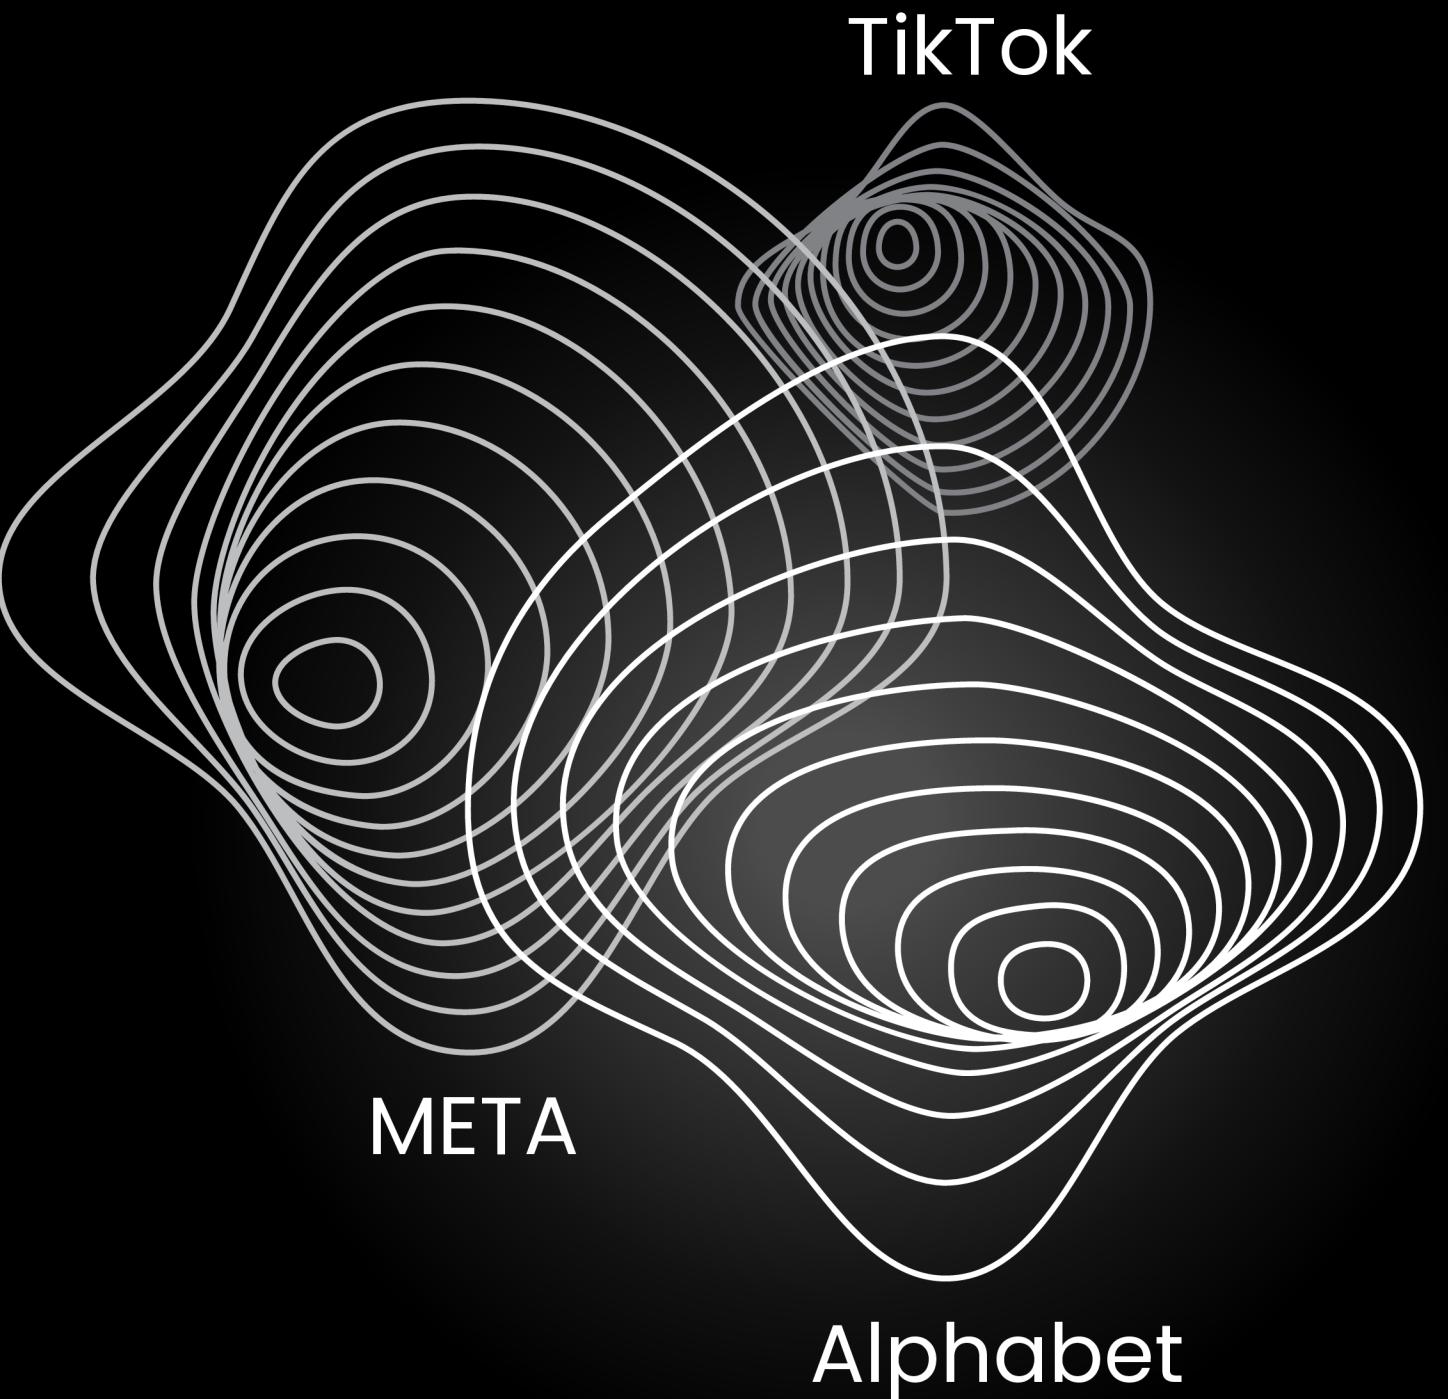

WHY SHOULD YOU CARE?

Average Person: 1.5 Mbps - Has 6 Social Media Platforms

Your personal data is everywhere.

People with malicious intent have the time and tools to piece it all together—enough to impersonate you and your loved ones.

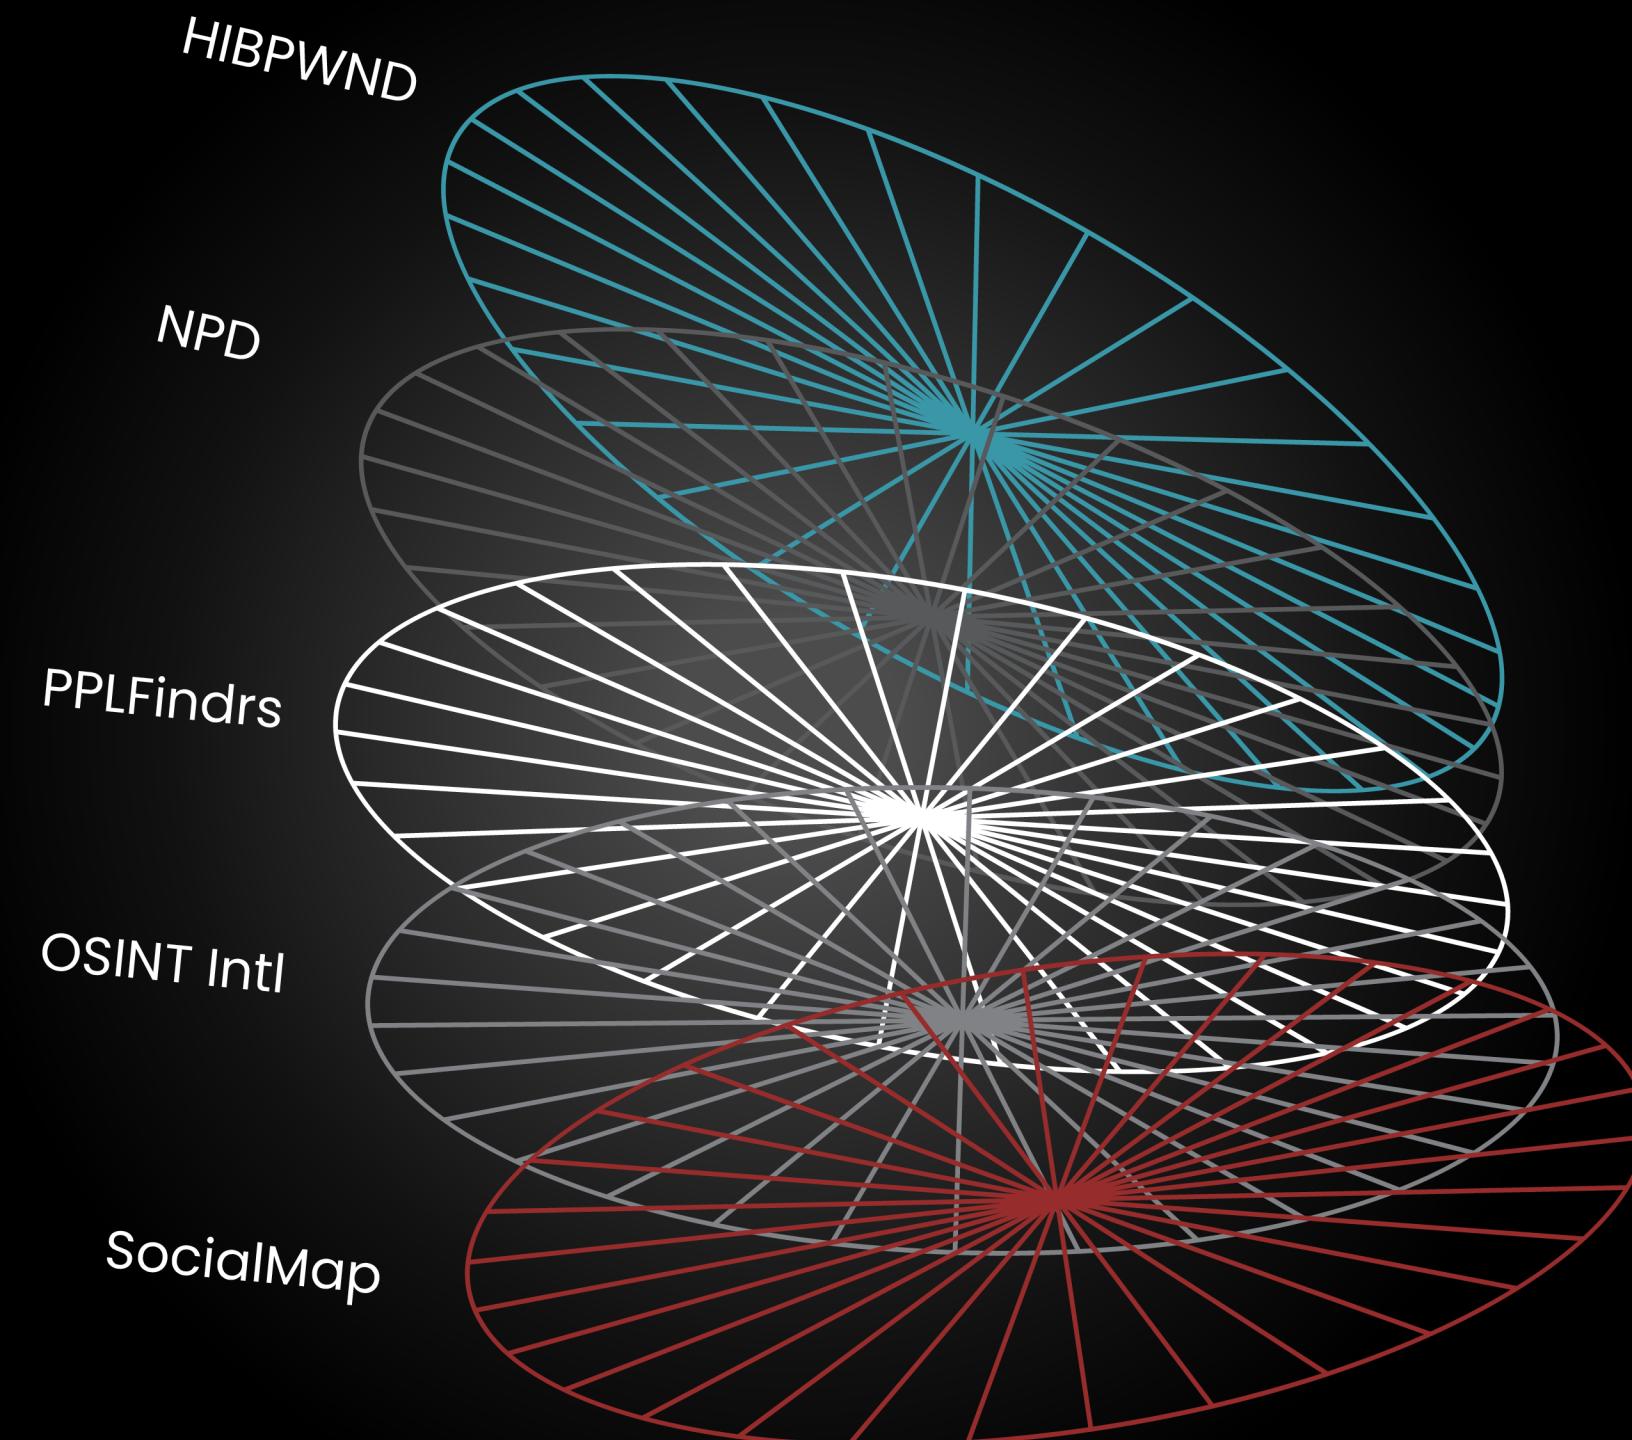

But do you?

WHAT WE DO

We gather publicly available data from multiple sources to show your full digital footprint.

You can't improve what you don't measure - We do it **for you!**

MEASURE YOUR DIGITAL FOOTPRINT

SCAN ME

Problem

Lack of visibility in viewing your digital footprint.

Distributed websites and tools, no centralized collaboration.

Too much or too little detail in reports, priced too high.

Existing Alternatives

Manually going through different websites and tools, compiling intelligence painstakingly.

Solution

Aggregates information from all public OSINT sources

Uses AI to summarize important points and provides risk reduction recommendations.

Makes social media map showing expanse of data

Key Metrics

Percentage reliable information scraped.

Time to update reports from database changes.

Mass request handling and client satisfaction.

Unique Value Proposition

Customizable OSINT workspaces. Repudiation guaranteed.

Legal-First: Protects user privacy while ensuring ethical intelligence gathering.

High Level Concept

Combines intel from social media, websites, public databases, legal, and proprietary OSINT sources.

Provides an AI created summary to take actions that will reduce risks.

Unfair Advantage

No competitors offer this scale of intelligence at our rates. We combine human and artificial intel for the most granular results. Our goal is a social and humanitarian one.

Channels

Market in CTF events.

Stands at Defcon, RSA, Bsides, other conferences.

Educational and training programs for cyber professionals

Customer Segments

OSINT Investigators

Suspicious Spouses

PI Firms

Researchers & Students

Training Teams

Early Adopters

Cyber-conscious, technologically curious, privacy aware, legal and statutory backgrounds

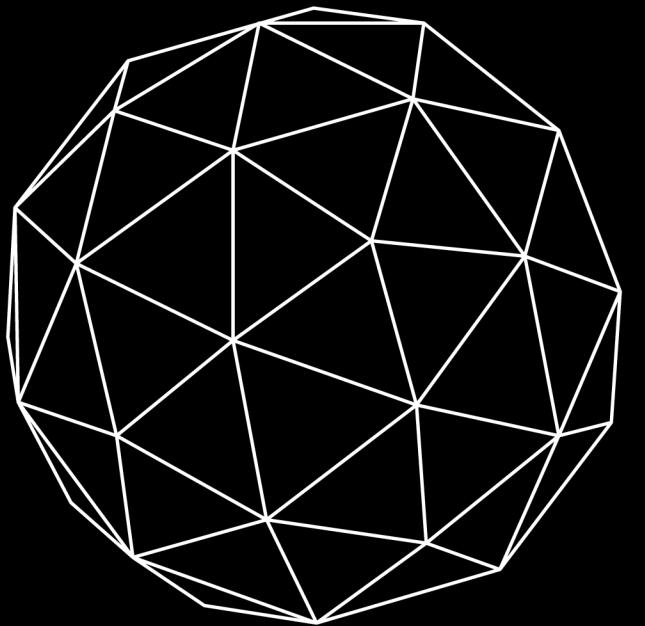

Cost Structure

Legal Compliance & Ethical Frameworks for OSINT
Human Intelligence (HUMINT) Network Expansion
Cybersecurity & Threat Intelligence Partnerships
Scalability & Cloud Computing for Data Storage

Revenue Streams

Tiered SaaS Model. Academy & Training Programs – Courses and certifications.
OSINT-as-a-Service API – Charging developers and platforms for OSINT integration.
Blockchain-Based Token Economy – Users earn crypto tokens for valuable intelligence contributions.

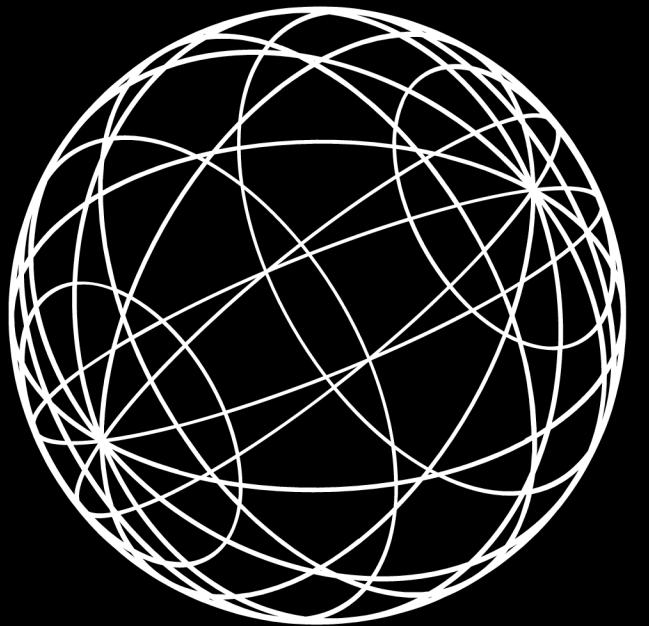

MONETIZATION STRATEGY

\$0.00

Free

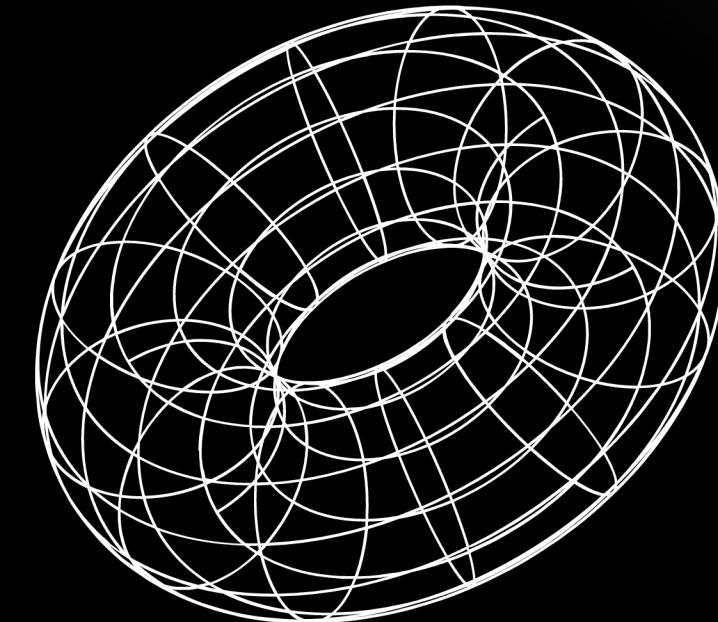

1 free search that renews every year. Use an email to create and verify an account.

\$8.99

Advanced

Detailed automated search, exhaustive social media presence mapping.

Custom

Investigative

A manual deep dive, enhanced by AI. Conducted by dedicated digital PIs.
